

Live 90-Minute Presentation with Marydee Sklar

Creator of the Seeing My Time® Course

Tips to Help your Student Succeed

Join Marydee Sklar in a practical, easy to understand exploration of the brain's executive functions. In this presentation, you will get a picture of WHY a student can struggle. You will go home with tips and strategies to set up executive function success for your student and your whole family.

- Understand and evaluate your child's executive functions
- Learn how executive functions evolve over a lifespan
- Build your student's time management skills
- Know which executive functions are required for independent homework
- Understand the powerful connection between behavior and learning

“ Every parent needs to hear this presentation and every teacher too! Our kids deserve for all adults involved in their lives to know this info and help them to grow and learn. ”

-Robin Posen, Parent

Marydee is an educator, author and national speaker. She has been helping families with time-management and organization challenges for twenty years. Her newest book is for parents: 50 Tips to Help Students Succeed — Develop Your Student's Time Management and Executive Skills for Life.
